The Significance of Each Life

It is always good for individuals, communities and indeed nations, to remember that their present situation is a result of the thousands of gestures of love or hate that came before. This obliges us to remember that the community of tomorrow is being born of our fidelity to the present. We discover that we are at the same time very insignificant and very important because each of our actions is preparing the humanity of tomorrow; it is a tiny contribution to the huge and glorious final humanity.
